APPLICATION FOR CHANGE OF OWNERSHIP

ABOUT THE SERVICE:

No business entity is set in stone, ranging from simple structures like sole proprietorships to corporations. Some business owners make changes for tax purposes or when acquiring or merging with another company, often due to the need for additional capital to grow the business. The Business Permit and Licensing Section understands the reasons behind a change in ownership and will help the owner determine the best course of action moving forward. Thus, the issuance of a certificate of change of ownership is granted after the corresponding fees are paid at the Municipal Treasurer's Office. This document is a prerequisite for other registering offices to change the name, close the previous owner's business, and meet other business tax requirements.
